

UJJAWAL SHRIVASTAV

Frontend Developer — React · TypeScript · Next.js

Delhi, India • +91 9718732066 • shriva.ujjawal@gmail.com
Portfolio • LinkedIn • GitHub

SUMMARY

Frontend Developer (B.Tech CS, AI/ML — 2025) who ships production React 19 and Next.js applications with TypeScript and Tailwind CSS. Strong in real-time UI patterns, SSE-streamed dashboards, responsive design, and cross-platform delivery from one codebase.

TECHNICAL SKILLS

Frontend: React 19, JavaScript (ES2024), TypeScript, HTML5, CSS3, Tailwind CSS 4, Next.js 15, Redux / state machines, Phaser 4, SSE streaming, responsive design, REST API integration, Git

Backend & Tools: Node.js, FastAPI, Python, Drizzle ORM, PostgreSQL, Vercel, Docker, Playwright (E2E), Capacitor (Android)

AI / ML (supporting): LLMs, RAG pipelines, ChromaDB, LightGBM, CatBoost

PROJECTS

Math Tug — Real-Time 2-Player Educational Game [↑](#) [↗](#)

React 19, TypeScript, Phaser 4, Tailwind CSS 4, PartyKit (Cloudflare Workers), Capacitor • 2026

- Built a real-time 2-player math game on a Phaser 4 canvas — React 19 manages the UI shell, a strict-TypeScript state machine drives all game logic, and PartyKit / Cloudflare-Workers provides authoritative multiplayer sync.
- Delivered a single codebase shipping to web (Vercel) and Android via Capacitor; fully responsive layout adapts from phone portrait to desktop split-screen.

EngiNerd — AI Learning Platform for Engineering Students [↗](#)

TypeScript, Next.js 15, Tailwind CSS, Drizzle ORM, PostgreSQL, Playwright • 2026

- Built a multi-page Next.js 15 dashboard with SSE-streamed live content updates — a 5-stage LLM pipeline feeds results in real time to the UI with zero full-page reloads.
- Production-grade frontend: OTP + OAuth auth flows, HMAC-verified payment confirmation UI, and 43 Playwright E2E tests gating every UI change.

McpIndex — Hybrid Search Platform [↗](#)

Next.js, TypeScript, Neon Postgres, Vercel • 2026

- Shipped a Next.js search platform indexing 1,532 MCP servers — instant BM25 + semantic search with a clean, responsive UI; built and deployed end-to-end in 2 days.

EDITH — Agentic Maintenance Copilot (Tata Steel National Hackathon 2026 — Rank 22, Round 2) [↑](#) [🔒](#)

Next.js, React 19, FastAPI, Python, LightGBM, CatBoost • 2026

- Built the Next.js + React 19 frontend: SSE-streamed real-time monitoring of 15 industrial assets, live alarm dashboard, and responsive recommendations UI; ML ensemble finished rank 22 nationally and advanced to Round 2.

Jarvis — Multi-Agent AI Assistant (condensed) [↑](#)

FastAPI, Python, Claude Agent SDK, ChromaDB • 2026

- FastAPI async daemon orchestrating 90+ AI subagents with a production RAG pipeline (ChromaDB + sentence-transformers); 35+ pytest tests; deployed as systemd services with Telegram bridge.

EDUCATION

B.Tech — Computer Science (AI/ML Specialization), Krishna Engineering College

2022 – 2025

STRENGTHS & INTERESTS

Ships fast across the full stack · learns tools on the fly · strong on responsive and real-time UI | **Interests:** Snooker · game development · side projects
